

TSK-415898 : CONTAINERIZE THE APP

The screenshot displays the IBM Cloud Kubernetes dashboard. The browser's address bar shows the URL: `cloud.ibm.com/kubernetes/clusters/cds9u5jf0aajs97aekug/nodes`. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user's account (sethu kms's Account). The main content area shows the 'newswaves' cluster, which is in a 'Normal' state and expires in 30 days. A sidebar on the left provides navigation for Overview, Worker nodes (selected), Worker pools, and DevOps. The 'Worker nodes' section contains a table with the following data:

Pool:	Filter...	Search		Name	Status	Worker pool	Zone	Private IP	Public IP	Version
▼			<input type="checkbox"/>	00000089	Normal	default	Milan 01	10.144.194.201	169.51.205.59	1.24.7_1543

At the bottom of the dashboard, there are controls for 'Items per page' (set to 25) and pagination (showing 1-1 of 1 item). The Windows taskbar at the very bottom shows the system clock at 23:42 on 19-11-2022.
